NEW MUSIC

1. GROOVIN

BIOGRAPHY

A 'Jae originally from New Britain, Connecticut was raised in Columbia, SC. The name A'Jae came from a nickname that was given to her as a teen when classmates used to sing Reminisce of Curtis Blows "Ajae". As a child, she was no stranger to music with her mother being a choir director at her local church. This allowed A'Jae to start in music as a child when she sang as a member of the youth choir in church. It was during her piano lessons that A'jae realized she had a gift for creating her own music. Eventually she would go on to sing in live bands and learn to produce her own music.

Being able to impact the lives of listening ears is what motivated A'jae to keep creating music and sounds that people love to hear. She draws her musical inspiration from the likes of Chaka Khan, Tina Marie, and Sade.

A'Jae creates music for adults who still want to hear music with natural vocals that touch the soul. She intends to create music that is timeless and classic and unable to be duplicated. Her latest single Groovin is now available on all streaming platforms with the video releasing in January of 2021.
